Open Call for VoxBazaar

Open call for national organisations wishing to present their work at the Europa Cantat 2021 festival in Ljubljana.

Some national choral associations have developed the so-called “National Houses” during the past Europa Cantat festivals, which helped them implement their ideas about promoting their work, choral activity and music within their respective countries and invite guests and festival participants. In a way, they have become an independent part of the festival and because the interest was growing, it became clear that a new concept was necessary for the future.

We will therefore pursue their vision in a revised version at the 2021 Europa Cantat festival under a brand-new name: VoxBazaar. We kindly invite all national choral organisations wishing to reach out to festival guests and participants and create a programme that will be attractive to the international public, to book a VoxBazaar package and make sure they are featured in the program brochure.

VoxBazaar will take place **between 17 and 24 July 2021 on two locations**, which are only a 5 minutes’ walk away from the main outdoor festival stage.

We have prepared up to **3 possible packages** for all the interested parties

- **(Package A)** Book a VoxBazaar stand within EXPO in the Cankarjev dom cultural and congress center: be present every afternoon, invite people to meet you at the stand, offer culinary treats from your country, present your choral repertoire, organise one small performance on the expo stage and so much more.
